## SKILLS

### TECHNICAL SKILLS

|  |  |  |
|--|--|--|
|  HTML       |  CSS        |  JavaScript |
|  Node.js     |  Express.js |  Python     |
|  PHP         |  Symfony    |  C++        |
|  Go (Golang) |  PostgreSQL |  MySQL      |
|  Linux      |  Git        |  |

### SOFT SKILLS

- Bilingual: English, French
- Oral & Written Communication
- Teamwork
- Problem-solving

## EXPERIENCE

EYROLLES | SOFTWARE ENGINEER INTERN

INTERNSHIP | Paris, France

*June 2021 – August 2021*

- Built a Symfony application to search among thousands of publications, write reviews (called "coups de coeur"), and print them in banner format
- Developed Twig templates enhanced by a responsive design using CSS & Bootstrap framework
- Integrated PHP object-oriented design principles
- Designed a highly intuitive application to optimize the ease and speed of writing and printing reviews

WASTE PREVENTION OF MEDICAL PRODUCTS |  
LEAD BACK-END DEVELOPER

PROJECT: O'MÉDOCS (TEAM OF 4)

*April 2021 – May 2021*

- Built and deployed an [e-commerce website](#) for medical professionals to buy and sell medicines that expire in a few months (otherwise thrown away)
- Reduces the annual waste of \$1.1 billion worth of medical products in France and helps hospitals cure more patients
- Created a RESTful API using Node.js/Express.js that only communicates (via CORS) with the front-end client built by the team in React/Redux
- Implemented JWT token-based authentication
- Performed SQL data migrations in PostgreSQL
- Led daily Scrum meetings

MOVIE SEARCH ENGINE

TEAM OF 2

*November 2022 – December 2022*

- Built a [movie search engine](#) in C++ that enables users to search through a catalog of over 4,850 movies and a combined 100,000+ ratings on all movies in the catalog
- Collaborated with my team member to offer multiple data structure options to run the movie search engine
- Implemented 2 linked list classes, each associated with its own node class, that provide a combined 12 search filter options
- Performed file streams to integrate the datasets within the program
